

1. Here are some of your answers:

WHAT IS COVID - 19 PANDEMIC GOOD FOR?

All the schools are closed. There are no tests.

We can be at home with our family.

We can finally take some time for ourselves and solve our life problems.

We finish all housework like painting walls.

When kids get this virus, most of the time it's no big deal.

We don't have to get up early.

I can finally sleep without worrying about my grades.

I can sleep as much as I want.

The world is running out of toilet paper.

Because people have to be in quarantine there is almost no traffic and nature can get better.

We have more time for ourselves and we can catch up with work we missed or we can try and learn new things.

We wash our hands several times a day.

The government will give less pensions, because many old people will die. (black humour)

The whole world will fight to destroy the coronavirus.

The virus will kill a lot of people and that is not such a bad thing because Earth is already overcrowded. (black humour)

Scientists will learn a lot from this experience, for example they have already managed to make the vaccine in the shortest time in the history of Earth.

WHY IS COVID -19 PANDEMIC BAD?

There are a lot of old people dying.

We can't be with our friends.

The virus can spread to many people very fast. You can easily get it. It spreads easily.

I can't go out. I can't play basketball with my friends.

I can't go rowing.

Public life has stopped.

A lot of schools had to close, to prevent the virus to spread. (A lot of you see this as an advantage.)

It has been a long time since the last pandemic spread in Europe, so governments were not really prepared for the danger and in some countries their protection measures were made too late or they were just not enough. The virus spreads very fast, so hospitals will be overwhelmed with patients in a short time and because of that many people that could be healed in other circumstances, will die.

To prevent the virus to spread, people will have to stay in quarantine and they will not be able to socialize, and pupils will not keep up with school.
